

Cayman Islands

Population Census 1979

P R E F A C E

The Government of the Cayman Islands decided to conduct its own Population Census for the year 1979, and a request was made through the "British Executive Service Overseas" for a suitable officer to assume the responsibilities of training, planning and conducting the Census, collection of data and processing through to the printed volume.

The Census programme was planned into 3 stages, in order that a 100% enumeration could take place, the planning was as follows:-

STAGE 1 – MAPPING TERRITORIES

The Lands and Survey Department provided detailed maps at a scale of 1–500 covering the three islands. These were then planned by the Census Advisor into 10 Census Districts and 79 Enumeration Areas, giving a workload to each Enumerator of approximately 60 dwellings of various mix.

STAGE 2 – ENGAGEMENT

Engagement of staff took place on the 21st August, 1979, comprising, viz:-

Grand Cayman	–	8 Supervisors and 74 Enumerators
Cayman Brac	–	1 Supervisor and 11 Enumerators
Little Cayman	–	1 Supervisor/Enumerator

Each Supervisor and Enumerator were duly sworn to an Oath of Secrecy as to information learned during their Census duties.

STAGE 3 – TRAINING

Training was conducted in 3 stages:

- Stage 1 – Field Survey – 2 hour Training Class and then 4 days in the Field with maps, to update maps, and get to know the territory – this resulted in an increase of approximately 850 additional properties being updated on the maps, and passed to Lands and Survey Department. All properties are detailed in the Census Record books.
- Stage 2 – Delivery – 2 hour Training Class and then 6 days in the field to deliver Census Forms.
- Stage 3 – Collection – 4 hour Training Class and then from Census Day 8th October 1979 to 22nd October 1979 to collect all Census Forms and to ensure that a total Enumeration had taken place.

The Success of the Census Programme was due in no small measure to the excellent co-operation received from the Local Press, Radio Cayman and the Public at large.

PREPARATION OF DATA

Approximately 5,000 Household Forms and 300 Visitors Forms were vetted and moulded into their right categories and then Coded for computerisation. This has taken 8 months to completion for printing. The Census Tables with the exception of "Section "A" Table A7 (which is de facto) have been compiled on a purely de jure basis throughout, this was necessary due to the incomplete details provided by visitors.

COMMENTS

The Caymanian population (including those with Status) represents 80.7% and others (excluding visitors) 19.3%. If one accepts the child bearing age as between 18 and 39 years the annual rate of 230 children is rather low i.e. 3199 females between 18 - 39 years equals .07 children per female. The total married females between 18 - 39 years = 1976 which again only gives a birth rate of 12.8% or .13 children per person.

The population make up percentage is as follows:

1 - 9 years	2860	17.1%
9 - 18 years	2974	17.8%
18 - 29 years	3323	19.9%
29 - 39 years	2456	14.7%
39 - 50 years	2083	12.5%
50 - 60 years	1342	8.1%
60 - 70 years	915	5.5%
70 - 80 years	512	3.1%
80 - 90 years	170	1.0%
90 - plus	42	0.3%
	16677	100.0%

Projecting these figures over 10 years we will have a further decline in birth rate and an increase in the age range of 50-70 years. The present birth rate has been at 1.8% or 18 per 100 for the past 3 years with Cayman Islanders and taking their present age range of 50 - 70 years we have 1870 persons, when projected to 1989 we will have 2639 persons, an increase of 41.1%.

Movement within the Islands of Caymanians
born of Cayman Parents or Parent is as follows:

District	Population 1979	Population By Birth	Total Movement	Movement To Other Districts	Movement From Other Districts
George Town	4813	3906	+907	286	1193
West Bay	3266	3304	- 38	337	299
Bodden Town	1231	1272	- 41	289	248
East End	1031	1261	-230	275	45
North Side	622	732	-110	226	116
Cayman Brac	1450	1922	-472	551	79
Little Cayman	25	41	- 16	28	12
	12438	12438		1992	1992

There were 4426 households of which 68% are Owner Occupied, 1% Government Rental, 21% Furnished Rental. The following lack of amenities within the households were revealed:

	%
Without Cooker	1.2
Without Sink	20.4
Without Bath/Shower	16.2
Without Flushed Toilets	15.6
Without Water	2.7

Of a total labour force of 7539, Caymanians account for 79% (5966) and non-Caymanian 21% (1573). The total available labour force between 18 – 65 years of age is distributed as follows:-

	Total	%
At Work	7539	77.9
Disabled	143	1.5
Seeking Work	580	6.0
Retired and Housewives	1418	14.6
	<hr/>	<hr/>
	9680	100.0

The work force is split into three categories, viz:

	Total	%
Self Employed	426	5.7
Self Employed Employing	448	5.9
Monthly Paid	2921	38.7
Weekly Paid	3744	49.7
	<hr/>	<hr/>
	7539	100.0

The percentage of males and females in the work force is 4442 males 59%, and 3097 females 41%. The distribution between Caymanians and non-Caymanians is:-

	Caymanians	%	Non-Caymanians	%
Male	3489	58	953	61
Female	2477	42	620	39
	<hr/>	<hr/>	<hr/>	<hr/>
	5966	100	1573	100

The increase in Caymanian participation in the work force since the 1970 Census is quite considerable i.e.

	1970	%	1979	%	Increase Of Persons	%
Caymanians	2446	72	5966	79	3520	144
Non-Caymanians	960	28	1573	21	613	64
	<hr/>		<hr/>		<hr/>	
	3406		7539		4133	

In 1970 we had 2.5 Caymanian to 1 non-Caymanian and in 1979 we have 3.8 Caymanians to 1 non-Caymanian in the active work force, this is a growth rate of 4.8 to 1 in favour of Caymanians over the past 9 years.

It should be noted that of the 580 seeking work a good proportion are between ages of 60 – 68 it is broken down as follows:-

Non School Leavers	93
Disabled	65
Others	422
	<hr/>
	580

Again at the time of the Census there were a number of persons who normally work in the Hotel Industry who were laid off, due to seasonal reasons and the 2 hurricanes David and Frederick which also agitated the picture. I would estimate the actual figure of true unemployed to be nearer 150, taking the 580 seeking work by district the results are:-

	Total	%
West Bay	155	26.7
George Town	199	34.3
Bodden Town	47	8.1
East End	59	10.2
North Side	45	7.8
Cayman Brac	74	12.8
Little Cayman	1	0.1
	<hr/> 580	<hr/> 100.0

The accuracy of the Enumeration is as near to 100% factual, the team of Census Officers carried out an excellent operation and provided such detailed information in their field and permanent record reports to certify these comments. My thanks to all of them and also to the computer staff, who, in spite of teething problems have done a good job in providing the printouts to achieve the Census Data contained herein.

THOMAS C. JEFFERSON,
STATISTICIAN.

6th October, 1980
